Summary

Looking for entry-level C# and .NET positions.

Main Skills:

- C#, Java, OOP
- Unity's scripting API
- GitHub/Git
- Products on both Steam and Google Play. My first Steam release hit over 300K impressions with ~4% Click-Thru-Rate (CTR) within 1 month.
- Portfolio: <https://lucas.games>

Experience

Remote Private Tutor

iD Tech Camps

Apr 2021 - Aug 2021 (5 months)

Educated recurring STEM students remotely with iD Tech (Silicon Valley company).

Lesson subjects included Unity3D, Oculus Quest 2 VR Development, and C# Script Coding.

VR Game Developer

Resilience, Inc. - Social Emotional Learning Programs

Nov 2020 - Aug 2021 (10 months)

Collaborated with a team to create an SEL-VR game for use with Oculus devices. I focused on utilizing Unity's XR Framework (C#) to develop new features and provide optimizations for future-proofing.

Education

University of North Florida

B.S, Computer Science

2018 - 2022

ABET Accredited

Skills

C# • Unity • Object-Oriented Programming (OOP) • Java • AutoCAD • Blender • Siemens NX • Collaborative Problem Solving • GitHub • Python (Programming Language)

Honors & Awards

2021 Virtual Computing Symposium Top 3 - University of North Florida

Dec 2021

Presented "Ball Boys" virtually against various post-grad projects at UNF.
